SUMMARY

I am seeking an opportunity to apply the knowledge and skills I have acquired in school while gaining practical experience in a professional work environment. I aim to further develop my technical abilities, learn new skills, and gain valuable insights that will prepare me for my future career. In return, I offer my dedication, willingness to learn, and commitment to contributing positively to your company throughout my training period.

EDUCATION

Bachelor of Science in Information Technology — **2023 Present**
Web System Technology — Cabanatuan City, Nueva Ecija
Nueva Ecija University of Science and Technology

Science, Technology, Engineering, and Mathematics (STEM) — **2021 - 2023**
Juan R. Liwag Memorial High School - Senior High School — Gapan City, Nueva Ecija

SKILLS

Programming & Development: JavaScript, PHP, HTML, CSS, Ionic, Angular
Database Management: MySQL, phpMyAdmin, ERD
Hardware & Technical Support: Basic PC and Phone Repair, Software Installation, Computer Troubleshooting
Software Proficiency: Microsoft Word, PowerPoint, Excel, Visual Studio Code, XAMPP, GitHub
Professional Skills: Problem-Solving, Teamwork, Communication, Time Management

PROJECTS

Citilife – Healthcare & Diagnostic Results Portal — **Jan 2026 - Oct 2026**
- A website where patients can easily view their X-ray results online without going back to the clinic.
- Helps clinics manage and send x-ray results directly to patient accounts.
- Created the web design and connected it to the database to store patient records safely.

Harvest Hotel – Online Room & Event Booking System — **Apr 2025 - May 2025**
- A web and mobile app that allows guests to check available hotel rooms and book reservations online.
- Allows users to book event venues and see their past and upcoming booking details.
- Created the design and screens to make sure it works smoothly on both mobile phones and computers.

Campus Care – School Clinic Management System — **Sep 2024 - Dec 2024**
- A web system designed for the school clinic to record student check-ups and medical visits digitally instead of using paper.
- Includes a feature to track the clinic's medicine inventory and supplies so staff know when stocks are low.
- Designed simple and easy-to-use screens for school nurses and clinic staff.

ORGANIZATIONS

Student Society in Information Technology Education (SSITE) - Multimedia Officer
Academic Year 2025 - 2026
